Tribal uses proposed:

The NCRSG has proposed to allow "tribal uses" in some MPAs. However, current California law does not provide the legal framework for allowing exclusive "tribal uses" (http://www.dfg.ca.gov/mlpa/meeting_022510.asp). To regulate take in MPAs, species and gear types must be identified and regulations apply to all users as specified.

Disclaimer:

This map represents a draft marine protected area (MPA) proposal developed by the MLPA North Coast Regional Stakeholder Group (NCRSG). This draft MPA proposal is under review; it is NOT a recommendation to the California Fish and Game Commission. Proposed special closures displayed on this map have been developed by the NCRSG separately from the draft MPA proposal and are displayed here for reference only during the second round of a three-round MPA planning process.

Pyramid Point SMR

Allowed uses:
No allowed take.

Pyramid Point SMCA

Allowed uses:
Recreational take of surfperch by hook and line from shore; surf and night smelt by dip net and cast net; retail surfperch by hook and line from shore.
